

When US theranostics criteria may not apply

A calm overview for US patients with advanced prostate cancer — and the people who care for them.

Who this is for

This sheet is for you if:

- You have **advanced or metastatic prostate cancer**.
- You and your care team are exploring **theranostics** (for example, Lu-177 / PSMA).
- You may **not meet** current US FDA label, trial, or typical eligibility criteria for theranostics in the United States.
- You want a structured way to learn whether an **Australia pathway** is worth discussing with your doctor.

You do not have to decide anything today. Talking with your physician comes first.

What Excel does

Excel Theranostics starts with a **local US consult**. If it is appropriate, we help open a **structured path to Australia** — including a named navigator for travel and lodging. Clinical care decisions stay with licensed doctors in the US and at **[partner clinic AU]**. We do not replace your oncology team. We help you explore access when US eligibility is a barrier.

How it works — 5 simple steps

- 1. Refer / contact** — You, a caregiver, or your doctor reaches out. We schedule a local US consult.
- 2. Consult** — We review your history and talk through options, risks, and logistics — without pressure.
- 3. Intake** — If you choose to proceed, we package records and submit them to **[partner clinic AU]**.
- 4. Travel & treatment** — Our navigator helps with flights, lodging, and timeline. Care is delivered by the Australia team.
- 5. Return home** — We send updates and a post-visit summary to your US doctor so care continues where you live.

What we help with — and what we don't decide

Excel / navigator helps with	Australia doctors decide
US consult scheduling Records packaging & intake coordination Travel, lodging & caregiver logistics Timeline & updates to your US doctor	Whether treatment is medically appropriate Accept, defer, or decline after review Day-to-day clinical care during treatment Follow-up while under their care

We do **not** invent outcomes, guarantee response, or promise visas, dates, or insurance coverage for care abroad.

How to start

Call **800.550.3194** or email

info@exceltheranostics.com.

Public contacts (confirm before printing):

Phone: **800.550.3194**

Email: **info@exceltheranostics.com**

Web: **exceltheranostics.com**

Ask for a patient consult about the **Australia theranostics pathway**.

A caregiver is welcome to join.

Partner clinic: **[partner clinic AU]**

Important — please read

This one-pager is **not medical advice**. It does not diagnose, treat, or determine eligibility.

Talk with your physician before making travel or treatment decisions.

International care involves travel, cost, and eligibility review by licensed clinicians. There are **no guarantees** of acceptance, timing, coverage, or clinical outcome.

Stock photos are illustrative only and do not depict Excel patients.

Counsel / consent: Patient-facing language and any future patient stories require counsel review (and written consent for stories) before external use. Replace bracketed placeholders with verified details before distribution.
